

AHEM*

[illegible]

Example

1. <i>MSc (course-based, 1 year)</i>	\$3,265	\$4,165	\$6,228
	36		17

Tuition is course-based, so allowing students to complete over 2 or 3 years fills seats at less revenue/year; some faculty feel the program should cap at 30 students because it increases teaching load on upper-year courses; expanding total enrolment past 36 will require additional admin support
